

House Design: Ivan Rijavec--Pure Form

Ivan Rijavec is an Australian architect, based in Melbourne, who continues to produce work that astounds both his peers and the wider community. Though commentators find it difficult to categorise and explain his work, images are the most reliable source with which to describe it - are only a few of the terms that have been used to describe the work of this remarkable architect. Rijavec likens the design process to a movie: I see my work as a strip of film that keeps changing in the viewers mind. The appearance changes according to ones vantage point, giving inner life to the structure. If only all movies were this good.
