

24 Declassified: Operation Hell Gate

Within twenty-four hours a nightmare will be unleashed that could cause the death of untold millions and devastate a great nation. Its a plot being carried out by the unlikelyst of allies. A powerful mole within the deepest reaches of U.S. Intelligence has secretly conscripted the very criminals hes been charged with investigating -- former IRA terrorists, Latino and Asian gang members, Middle Eastern assassins and others -- creating one of the most insidious terrorist networks law enforcement has yet to take down. One man stands between the destroyers and the death tide: Jack Bauer, lone wolf operative for Americas brand-new elite Counter Terrorist Unit. But hes three thousand miles from the CTU command center without backup in a strange city, New York. Hes been artfully set up and is being hunted by the FBI for the murder of two of its agents. And times almost up . . .
