

## 30 Houses that mattered finest in the 20th Century: Architecture

This book focusses on 30 of the finest Houses created in the 20th Century. The homes range from famous to the-as-yet-to-be-known. These Designs are about the exploration of Form and Meaning by the Designers. The use of new , and in some cases radical construction ideas and technology is prominent. For the first time in human history most of society could build a home that had social meaning and expressive form. This book features in living color the nature of these Designs.
