

Advanced Oncology Nursing Certification Review and Resource Manual

Both a study guide and a clinical resource, this new manual offers oncology advanced practice nurses a comprehensive review in preparation for advanced oncology certification tests and a valuable reference guide that can be used in everyday practice.

This new manual addresses topics important to advanced oncology nursing and includes case studies and practice test questions nurses can use to help them prepare for advanced oncology nursing certification exams. Topics in this manual are representative of testing blueprints for the advanced oncology nursing certification tests so readers can feel confident that they are studying pertinent material. Yet, this new resource offers readers more than just a study guide for test preparation. Using the most current clinical evidence and literature available at the time of publication, the topics presented have been expanded and represent a valuable resource for oncology advanced practice nurses, graduate nursing students, oncology nurses in clinical practice, and other healthcare professionals.
