

The Book of Assassins

The compelling, tragic and often bizarre life stories of history's famous and infamous assassins, now collected in one comprehensive, easy-to-use volume. The names are well-known, but how much do you know about the inner lives of John Hinckley Jr., who shot Ronald Reagan in a misguided attempt to impress actress Jodie Foster, or Mark David Chapman, who, after shooting John Lennon, sat down on the sidewalk to continue reading *The Catcher in the Rye*? And what about the world's not-so-famous assassins? Find out what happened when Carlito Dimahilig attacked Imelda Marcos with a bolo knife (and how one of her many famous pairs of shoes came into play!), or why Max Hodel could be considered one of the least successful assassins in history. With breadth of study and a keen eye for detail, George Fetherling has compiled a fascinating and very readable compendium -- the first of its kind -- of more than 200 biographies of assassins from all periods and countries, for the scholar and general reader alike. Fetherling also provides an overview of the history of assassination, outlines the five psychological types of assassins and gives a run-down of the most useful literature in the field. Ideal for students, historians, history buffs, psychologists and readers interested in biography and true crime, this book is a must-have window into the lives of those who have drastically shaped the history of our world.
