

Detail in Contemporary Residential Architecture

Detail in Contemporary Residential Architecture provides analysis of both the technical and the aesthetic importance of details in the development of contemporary residential architecture. Featuring many of the worlds most highly acclaimed architects, the book presents more than 50 of the most recently completed and influential house designs. For each house there are color photographs, plans of every floor, sections and elevations as well as numerous consistently styled construction details. The book also features in-depth information for each project.
