

## Chapters from Aristotles Ethics - 1900

Aristotle (384 BC 322 BC)[1] was a Greek philosopher, a student of Plato and teacher of Alexander the Great. His writings cover many subjects, including physics, metaphysics, poetry, theater, music, logic, rhetoric, linguistics, politics, government, ethics, biology, and zoology. Together with Plato and Socrates (Platos teacher), Aristotle is one of the most important founding figures in Western philosophy. Aristotles writings were the first to create a comprehensive system of Western philosophy, encompassing morality and aesthetics, logic and science, politics and metaphysics.319 Pages Original-Scan, NO GOOGLE-SCAN
