

Characters of Shakespeares Plays (Illustrated)

This new edition of William Hazlitts Characters of Shakespeares Plays is part of Modern Parlanche effort to shine a light on outstanding but often forgotten writing and criticism of the past. The book includes not only the original 1817 text but is also contains a selection of paintings, engravings and sketches of Shakespearean characters from the mid-18th to early 20th century. Additional notes on these illustrations used are intended not only for clarification but we hope will serve as a helpful and interesting guide to the treasure trove of imagery we have of these remarkable characters that Hazlitt examines in such detail.
