

The Empty Family

I imagined lamplight, shadows, soft voices, clothes put away, the low sound of late news on the radio. And I thought as I crossed the bridge at Baggot Street to face the last stretch of my own journey home that no matter what I had done, I had not done that. In the captivating stories that make up *The Empty Family*, Colm Toibin delineates with a tender and unique sensibility lives of unspoken or unconscious longing, of individuals, often willingly, cast adrift from their history. From the young Pakistani immigrant who seeks some kind of permanence in a strange town to the Irish woman reluctantly returning to Dublin and discovering a city that refuses to acknowledge her long absence each of Toibin's stories manage to contain whole worlds: stories of fleeing the past and returning home, of family threads lost and ultimately regained.
