

## A Childs Dream of a Star (Original 1853 Edition): Annotated

Summary (differentiated book): - Original book from 1853 - Book contains detailed biography of author - Includes photos/illustrations of the author Book details: Dickens told one of his biographers that as a child he used to wander at night about a churchyard, near their home, with his sister. This sister died only two years before this poetic fantasy was written. Perhaps it was the sincerity of his grief for this lost sister which keeps this story as simple as it is in its sentiment. It is a fable, a lovely apologue, slight in substance and yet adequate in itself. This story of Dickens may be compared profitably with Lambs Dream-Children and with Andersens Steadfast Tin Soldier. All three are fantasies; all three deal with childhood; all three are poetic, each in its own fashion. They all fall well within the frame of the true short-story because the several authors sought to present a single theme with the clearest simplicity.
