

## Jacobs Room [Annotated]

Jacobs Room is a novel by Virginia Woolf published in 1922. Set in pre-war England. The novel centers, in a very ambiguous way, around the life story of the protagonist Jacob Flanders, and is presented entirely by the impressions other characters have of Jacob [except for those times when we do indeed get Jacobs perspective]. Thus, although it could be said that the book is primarily a character study and has little in the way of plot or background, the narrative is constructed as a void in place of the central character, if indeed the novel can be said to have a protagonist in conventional terms.
