

## Days of Destruction, Days of Revolt

Named a Best Book of the Year by Amazon.com and the Washington Post three years ago, Pulitzer Prizewinner Chris Hedges and award-winning cartoonist and journalist Joe Sacco set out to take a look at the sacrifice zones, those areas in America that have been offered up for exploitation in the name of profit, progress, and technological advancement. They wanted to show in words and drawings what life looks like in places where the marketplace rules without constraints, where human beings and the natural world are used and then discarded to maximize profit. Days of Destruction, Days of Revolt is the searing account of their travels.
