

C and C++ Multimedia Cyber Classroom

This special edition combines the book, C++: How to Program, and a fully-functional, truly interactive multimedia CD-ROM that teaches novices and experienced programmers alike how to program in C/C++. The package incorporates a video introduction to each chapter by the authors; hours of audio explanations; the complete text of C++: How to Program; and selected chapters from C: How to Program 2nd edition. All of the sample programs can be executed from within the CD-ROM. In addition, they can be copied directly to the users compiler with the click of a mouse button. The CD-ROM runs on Microsoft Windows and is compatible with all major C/C++ compilers.
