

Dont Be An Idiot When You Spar 2: A Guide To Muay Thai Fighter Types

Continuing the Dont Be An Idiot When You Spar series, Dont Be An Idiot When You Spar 2: A Guide To Muay Thai Fighter Types is about Muay Thai fighter types and the strategies one can implement when one knows the type of fighter one is and the type of fighter one is fighting. About the Dont Be An Idiot When You Spar series: If two people were to decide to brawl (not technical brawl, but throw caution to the wind and start swinging brawl) then each opponent would have a fifty percent chance of winning (providing that the physical attributes of both people are relatively the same). The point of learning how to fight is to tilt the odds in your favor so that you can have a mental and physical advantage over your opponent if you were to fight. The Dont Be An Idiot When You Spar series was written to hopefully, help tilt the odds even more in your favor the next time you fight.
