

Drivers Education: A Novel

Hes a big man, my granddad, not necessarily in size or proportion, but in other ways, like the manner in which he lives. The trouble in which he finds himself. The magic that he conjures and the spectacular things he believes. When he was a younger man, Alistair McPhee was fond of escaping in his 56 Chevy Bel Air, Lucy, named for the cherished wife who died and left him and their nine-year-old son Colin behind. Yearning for a way to connect to his itinerant father, Colin turned to writing screenplays inspired by the classic films they used to watch together, while Colins own son, Finn, grew up listening to his grandfather spin tales of danger, heartbreak, and redemption on the road. Now, at the end of his life and wishing to feel the wind in his hair one last time, Alistair charges his grandson with a task: bring Lucy to him in San Francisco from New York, where a man named Yip has been keeping her safe. The long road west will lead Finn, accompanied by his disgruntled friend Randal and an ancient three-legged orange cat named Mrs. Dalloway, through the very cities that supposedly bore witness to Alistairs greatest adventures, offering an unlikely lesson in the differences between facts and truth, between boys and men. Drivers Education is at once a literary adventure and a finely detailed family portrait, combining in a bold declaration of Grant Ginders outstanding storytelling gifts.
