

## From Mother With Love: Letters To Our Sons

The bond between a mother and her son is one which needs little explanation. It transcends other family relationships, in a way that only a mother and son could hope to understand, and each one is as unique as the individuals who form those connections. From Mother with Love: Letters to Our Sons, is a distinctive combined work, from eight women of diverse backgrounds, who have written open letters to their sons, to share their advice on important themes such as; Marriage Dating Love Faith Health Identity And the transformation from boy to man The letters are sincere and insightful and seek to cement an already strong relationship, with an unspoken promise of always being there to support and nurture as they make their way through life. Each chapter includes a prayer for the son in question, giving yet deeper meaning in a spiritual and profound way, and further strengthening the attachment between them. It is a book for mothers and a book for sons, not just for the good times, but also to help them navigate the tough choices life sometimes throws at us.
