

White Corridor: A Peculiar Crimes Unit Mystery (Bryant & May series Book 5)

From using crackpot psychics to cutting-edge forensics, Arthur Bryant and John May are famous for their maddeningly unorthodox approach to solving crimes that the ordinary police cannot. Now Christopher Fowler, a new master of the classical detective story,* brings back crime detections oddest and oldest couple to solve the ultimate locked room mystery. It's an impossible crime: a member of the Peculiar Crimes Unit killed inside a locked autopsy room populated only by the dead and to which only four PCU members had a key. And to make matters worse, the Unit has been shut down for a forced vacation and Bryant and May are stuck in a van miles away in the Dartmoor countryside during a freak snowstorm on their way to a convention of psychics. Now, with Sergeant Janice Longbright in charge at headquarters, Bryant and May must crack the case by cell phone while trying to stop a second murder without freezing to death. For among the line of snowed-in vehicles, a killer is on the prowl, a beautiful woman is on the run from a man who seeks either redemption or another victim, and an innocent child is caught in the middle. Weaving together two electrifying cases, *White Corridor* is an unforgettable triumph by turns hilarious and harrowing as two of detective fiction's most marvelous characters confront one of human nature's darkest mysteries: the ability to deceive, deny, and destroy.
