

Her Last Wild Ride

Some guys know just what a girl needs Fresh off a brutal breakup with a guy who was running for the Worlds Biggest LiaraAshling Sullivan has returned to New York City to start over. Priority number one is getting her new business started with her BFF, Jenna. Hence their strict no-guys pact. No dating, no sex, no exceptions! Until temptation walks into her brothers bar in the form of a really, really hot guy!She must resist. She will resist. Except that Johnny Ryan, with his cool, edgy but brooding attitude (what is it with this guy?) and his so, so strong carpenters hands, is six-foot-three inches of ripped, Irish sexiness that turns Ash into a puddle of lust in about half a second. Worse yet, he offers her a deal that she cant refuse a down n dirty and wickedly hot two-week fling. Just one last ride before she gets down to business. No one will know! Ash is definitely not thinking with her head or her heart when she agreesBecause this thing with Johnny goes way deeper than just chemistry. And what started as a last wild ride with a bad boy is definitely headed for a major head-on collision
