

Hogfather: Discworld, Book 20

Its the night before Hogswatch. And its too quiet. Theres snow, there are robins, there are trees covered with decorations, but theres a notable lack of the big fat man who delivers the toys. Hes gone. Susan the governess has got to find him before morning; otherwise, the sun wont rise. And unfortunately, her only helpers are a raven with an eyeball fixation, the Death of Rats, and an oh god of hangovers. Worse still, someone is coming down the chimney. This time hes carrying a sack instead of a scythe, but theres something regrettably familiar....Ho, ho, ho. Its true what they say: Youd better watch out.
