

Mommie Dearest

Mommie Dearest is a memoir and expose written by Christina Crawford, the adopted daughter of actress Joan Crawford. The book, which depicts Christina's childhood and her relationship with her mother, was published in 1978. In the book, Christina Crawford claims that she was a victim of child abuse during her mother's battle with alcoholism and that her mother was more concerned about being an actress than the mother of four of her own children, suggesting she may have adopted them as a scam to become more famous. She also suggests that Joan had a long list of affairs with men whom Christina was required to call Uncle and rarely Daddy, and claims Joan also had many affairs with women. Christina recounts several evenings where Joan's behavior was unbalanced, and at least one encounter with her mother where Crawford attempted to strangle her. In another, Joan reportedly discovered Christina's clothes hanging in a closet on wire hangers, instead of higher-quality padded hangers, and launched into a violent tirade on the subject.
