

## Suicided: Exodus Sequence 5

A dirt fighter experiences a revelation that goes beyond immortality. In a gladiatorial-style dirt arena on Ires common name Titan Rape is pitched against Iron. Its a fight to the death. But because these are immortals, death is only temporary. In a revenge attack, Rape whose name has been cut from Rapier undergoes a reversal of Self, a transformation that is unprecedented. Not knowing what else to do with him, he is locked in an electronic cage, in isolation, for all time. Then he is offered a deal. And this time, death wont temporary. Extract: He danced out of Irons reach. He was aching with exhaustion. Pain hammered at him but the look in his eye would have made a more intelligent man blanch. Iron seemed not to have noticed but the crowd recognised the stance, if Iron didnt. The camera bugs moved in. Handheld screens maxed on zoom. Iron was raging. He had been pushed beyond normal endurance. The Exodus Sequence: Each novelette in the Exodus Sequence is a standalone story. They dont have to be read in order. They are not in any way connected like chapters in a book. They vary in style and character, time and place. However, the mystery unfolds as the sequence progresses, hence the numbering. To follow this unfolding, the sequence is best read in order. A novelette is, by definition, longer than a short story but not as long as a novella.
