

Innovations in Safety (Problem Solved! Your Turn to Think Big)

You might not know there was once a world without bike helmets, seatbelts, and airbags. This title looks at major innovations in safety over the years, and the ingenious inventors, scientists, and engineers who made them. These amazing individuals have saved countless lives by identifying safety hazards in everyday situations, and inventing devices that keep people from getting hurt. With a little inventive thinking, what might you create to help protect people and even save lives?
