

Lab Manual for Nelson/Phillips/Steuarts Guide to Computer Forensics and Investigations

To ensure a successful experience for instructors and students alike, this book includes the following sections for each lab: Lab Objectives - Every lab has a brief description and list of learning objectives Materials Required - Every lab includes information on the hardware, software, and other materials you need to complete the lab. Estimated Completion Time - Every lab has an estimated completion time, so that you can plan your activities accurately.

Activity - The actual lab activity is presented in this section. Logical and precise step-by-step instructions guide you through the lab. Review Questions - Each lab includes follow-up questions to help reinforce concepts presented in the lab.
