

## Designing with Spirituality: The Creative Touch

The sixth volume in a series devoted to the use of design materials and compositions in residences around the world, *Designing with Spirituality: The Creative Touch* addresses how interior designers and architects use the influence of various religious, cultural and moralistic points of view to enliven and energize objects, surfaces, and environments throughout the home. Included are home designs empowered with Zen, Jewish, Christian, Moslem, tribal or native allures--spaces cherished not just for their beauty, but for their ability to express and nurture the spiritual aspects of life.
