

My Child Is Gay: How Parents React When They Hear the News

Written by parents who have a gay or lesbian child, this compilation of letters can help parents deal with feelings of confusion, embarrassment, guilt, or anger, while showing how ordinary families have found love, happiness, and normalcy again. Updated with new stories and experiences, this edition acknowledges that while a brave child often takes time to come to terms with his sexuality before sharing his feelings, parents are often shocked and overwhelmed with little time to react. Together these letters reaffirm the healing power of support and allow those with first-hand knowledge to outline the steps toward understanding and the importance of helping their children share the truth.
