ShelterAn embarrassment of riches.--  
ManasHow very fine it is to leaf through a 176-page book on architecture -- from bailiwicks to zomes -- and find no palaces, no pyramids or temples, no cathedrals, skyscrapers, Kremfins, or Pentagons in sight... instead, a book of homes, habitations for human beings in all their infinite variety. -- Edward AbbeyShelter is a must not only for those actively engaged in house building, but for everyone who understands that lifestyle begins at home -- that we are, after all, where we live. -- Rolling StoneShelter is lavishly illustrated, containing over 1000 photographs, numerous drawings, and 250,000 words of text concerned with basic shelters from all over the world. -- San Francisco ChronicleIts time to educate the architects. To that extent this book on shakes and wattle and daub is the most revolutionary architecture book around...-- Architecture In AustraliaA piece of environmental drama.-- Building Design
