

Teaching Your Teen Behind the Wheel: A Parents Guide for their Teenage Driver

If you could think of one tool that could help teach a new driver and their parent to be safer, learn quicker, and to get better results in preparation for driving, it would have to be a book written by someone who has spent nearly a decade and over 12,000 hours in an automobile with new drivers. This book is it! It captures the heart of years of experience combined with a desire to protect America on the road. Anyone who is a beginning driver or a parent that wants to help their teenager will benefit from these simple instructions.
