

Quest for Social Justice: An Illustrate Primer

Quest for Social Justice The age old caste system continues to be a major factor promoting social inequality and retarding the progress of large sections of society. Despite 65 years of Independence and guarantees against injustice, enshrined in the Indian Constitution and Dr.Ambedkars fight to eradicate it, the caste-system not only prevails but is getting reinforced today! With the rise of politics in the name of religions, the overall process of social transformation of caste and gender has got a big setback. The issues based on religious identities like Ram Temple and Holy Cow are dominating the scene and the real issues of society, those related to rights of weaker sections of society, social justice, etc have been relegated to the margins. This book is an attempt to present the issues related to caste system in India: its genesis, its perpetuation and its impact on large social sections. The book outlines the scriptural base of the caste system and takes up the process of social transformation during the freedom movement, the process triggered by industrialization and modern education. It also takes up the role of Mahatma Jotiba Phule, Dr. Ambedkar, Savitribai Phule and E V Ramasamy Periyar in leading the struggles for abolition of caste and the domination of Brahminism. It also touches the issues of reservations for Dalits & OBCs, the Sang Parivar inspired move to review the Constitution and the impact of RSS politics on struggles of Dalits for social equality. The book is a simple elaboration of concepts with visuals, cartoons and tables. It gives the basics of the whole gamut of issues related to caste and how Hindutva politics is an attempt to subjugate the struggles of caste equality.
