

## Roseanna

On a July afternoon, the body of a young woman is dredged from Sweden's beautiful Lake Vattern. Three months later, all that Police Inspector Martin Beck knows is that her name is Roseanna, that she came from Lincoln, Nebraska, and that she could have been strangled by any one of eighty-five people. With its authentically rendered settings and vividly realized characters, and its command over the intricately woven details of police detection, *Roseanna* is a masterpiece of suspense and sadness.
