

## Spencers Driving in Europe

An invaluable handbook for the motorist in Europe, useful both planning your trip and as a source of essential information as you travel. Thirty-nine countries are included: from Belgium to Bulgaria, from Finland to Portugal. There's guidance on the documentation you require for your vehicle, on driving regulations, fuel availability, requirements for camping and caravanning, road signs, safety, parking motoring organizations, disabled driving, and much more. Full port and ferry terminal maps seek to take the worry out of arriving in a new country. The book also provides general information on national holidays, embassies and tourist boards, post offices and shops, credit cards, emergency numbers and medical protection. The book features full colour photographs throughout.
