

2600 Magazine: The Hacker Quarterly - Autumn 2011

2600 Magazine is the worlds foremost journal on computer hacking and technological manipulation and control. Published by hackers since 1984, 2600 is a true window into the minds of some of todays most creative and intelligent people. The de facto voice of a new generation, this publication has its finger on the pulse of the ever-changing digital landscape. Available for the first time in a digital edition, 2600 continues to bring unique voices to an ever growing international community interested in privacy issues, computer security, and the digital underground.
