

The Connected Apple Family: Discover the Rich Apple Ecosystem of the Mac, iPhone, iPad, and Apple TV

Most of us know how to use an iPhone for some activities and a Mac for others, but the experience is much richer when our Apple products work together. Bypass the frustration of wrangling separate devices and tap into Apples hardware and software ecosystem. From streaming movies across devices to sharing music, apps, and calendars between friends and family members, Apples products are designed to work together, to your and your familys benefit. Jeff and Dan show you how to Set up Family Sharing and designate a Family Organizer Share music, movies, and apps among family members Manage passwords and stay safe, including tips on creating good passwords and using Touch ID Share essential information, including calendars, contacts, reminders, maps, and files Control a family members screen remotely for easier longdistance troubleshooting Back up your irreplaceable data, whether its on iOS devices (iCloud and iTunes) or your Mac (Time Machine) Be smart (and safe!) and create a bootable Mac backup Welcome the newest member of the Apple family, the Apple Watch, and learn how it will extend your current devices Packed with full-color images and step-by-step instructions, this invaluable guide will quickly help you get Apple devices and apps working to their full potential for your family.
