

The Medusa Frequency

An inexplicable message flashed onto the screen of his Apple II computer at 3 a.m. heralds the beginning of a startling quest for frustrated author Herman Orff. Taking up the offer of a cure for writers block leads him to those places in your head that you cant get to on your own - and plunges him into a semi-dreamland inhabited by a bizarre combination of characters from myth and reality: the talking head of Orpheus; a lost love; the young girl of Vermeers famous portrait - and a frequency of Medusas.
