

## The One Thing More

It is January 1793. France is at war with Belgium, Prussia and Austria, and Louis XVI has just been sentenced to death. In Paris, a small group of people fears for the future of a throneless France surrounded by countries terrified that republican ideas or anarchy will spread throughout the continent. They are determined to rescue the king, but when their leader is murdered a plan must be pieced together and executed within three days.
