

The Path on the Rainbow

This anthology of Native American poetry, song and ritual, presents texts from a wide range of culture areas. The translations are largely based on work by anthropologists, and all reflect genuine Native American lore. These poems come from a place in which magic, art and ritual are indistinguishable. They reflect an archaic consciousness which comes close to the Homeric or Indian epics in which gods walk the earth, magic is alive, and animals are just as human as you or me. To read these texts is to be absorbed back into that consciousness.
