

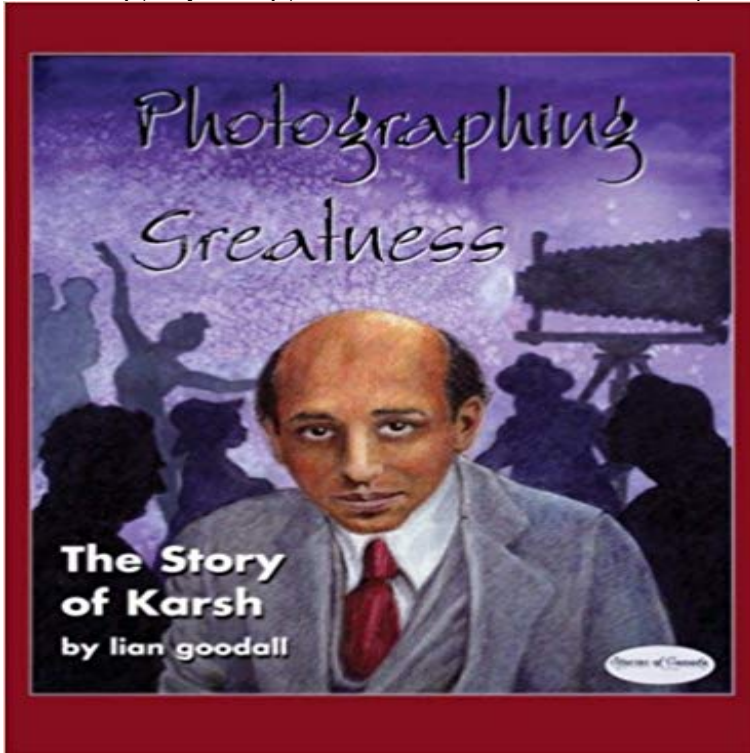

## Photographing Greatness: The Story of Karsh (Stories of Canada)

Yousuf Karsh emigrated to North America from Turkey in the 1920s, eventually settling in Ottawa. An early interest in photography inspired him to open his own studio. As he became known for the quality of his work, Karsh's close proximity to powerful leaders in Ottawa led to commissions of portraits of politicians. He became known as the world's finest portrait photographer for his gift of drawing out and capturing a subject's character in a photograph. Over a seventy-plus year career, Karsh photographed many famous musicians, artists, actors, captains of industry and politicians. He was also a humanitarian who worked with sick children. This is the first children's biography of the man who immortalized the makers of history.
